- Do not use perfumed products such as deodorants, body sprays and perfumed lotions for 24 hours.
- No tanning, sunbathing or sunbeds immediately after waxing.

- Do not undertake any other skincare treatments within 48 hours of having a waxing treatment.
- Do not shave or epilator in between waxing appointments.

For long term improvements book in for regular treatments every 4 to 6 weeks depending on your hair growth. You may notice a small amount of hair growth after a week or so. It can take up to 4 treatments for your hair growth cycle to get the best results.
